- You may annotate this insert and use the blank spaces for planning. **Do not write your answers** on the insert.

This document has **12** pages.

Section A: Financial Accounting

Question 1

Source A1

MN Drama Club was formed in 2017 with the objective of promoting modern performances. The treasurer of the club resigned on 31 December 2021. The chairman prepared a draft income and expenditure account which was based on the receipts and payments account.

Draft Income and Expenditure account for the year ended 31 December 2021

	\$	\$
Subscriptions		40 400
Tuition fees		8 000
Ticket income from performances		14 200
Donation		<u>7 500</u>
		70 100
Expenses for performances	11 500	
Office equipment (first payment)	2 000	
Administrative expenses	30 100	
Heating and lighting	13 200	
Building extension	16 000	
Building maintenance	<u>4 600</u>	
		<u>77 400</u>
Deficit for the year		<u>(7 300)</u>

The draft income and expenditure account had been presented to a member of the club who is an accountant.

Further information was available.

1 There is a great demand for after-school tutorial classes in the local community. In October 2021 the club started running after-school tutorial classes. The club targeted the classes at children from poor families. A maximum of 20 children could join these classes. Children were required to join as student members of the club and pay the following fees in advance:

- i student membership fee of \$100, which is one-third of an ordinary member's subscription
- ii a tuition fee of \$400 covering the period from 1 October 2021 to 31 May 2022.

Student membership fees paid by children are included in subscriptions in the draft income and expenditure account.

The tuition fee is refundable on a monthly basis if the student withdraws. The student membership fee is non-refundable.

The tutors are volunteers and have experience in teaching.

The classes were popular and were fully booked.

- 2 Information relating to ordinary members' subscriptions at 31 December **2021** and at 31 December **2020** is as follows:

	31 December 2021	31 December 2020
Number of members paid in advance	0	9
Number of members in arrears	24	4

- 3 Information relating to non-current assets:

	Building \$	Equipment \$
Cost at 31 December 2020	200 000	120 000
Accumulated depreciation at 31 December 2020	110 000	85 000
Depreciation method	Straight-line	Reducing balance
Annual rate	10%	20%

A full year's depreciation is charged in the year of purchase of the asset.

An item of office equipment was purchased on credit during the year. The debt was repayable in three equal instalments at intervals of four months, with the first payment made in October 2021.

- 4 During the year a member donated \$7500 which is to be used to sponsor the club's participation in a national event for the coming five years.
- 5 Other prepaid and accrued expenses at 31 December **2021** and at 31 December **2020** are as follows:

	31 December 2021 \$	31 December 2020 \$
Accrued		
Administrative expenses	9000	6200
Heating and lighting	–	1500
Prepaid		
Heating and lighting	700	–

- 6 Cash at bank at 31 December 2021 amounted to \$6400.

Answer the following questions in the question paper. Questions are printed here for reference only.

- (a) State **two** reasons why a club needs to have a clear objective. [2]
- (b) Explain how the tuition fees of \$8000 should be treated in the revised financial statements of MN Drama Club. Support your answer with reference to the relevant accounting concept. [4]
- (c) Prepare the revised income and expenditure account for the year ended 31 December 2021. [12]

Additional information

The chairman has received many requests from local parents for the tutorial classes because the fee charged by the club is 50% lower than other organisations. He has a plan to admit 60 students in October 2022. To increase the capacity, he estimates that an expenditure of \$30 000 would be incurred in an extension of the club's building.

- (d) Advise the chairman whether or not he should carry out the plan. Justify your answer. [7]

Question 2**Source A2**

AB plc is a trading company. The draft profit from operations for the year ended 31 December 2021 was \$98 000 before the following items were considered.

- 1 On 1 September 2021, AB plc issued a 6% debenture for \$200 000. Interest is payable half-yearly.
- 2 Revaluation reserve at 1 January 2021, \$72 000, arose from the revaluation of a property on 1 January 2017. The property was purchased on 1 January 2013. It is depreciated using the straight-line method over its useful life of 40 years with no residual value.

On 1 January 2017, the market value of the property was \$432 000.

On 1 January 2021, the property was revalued again at \$296 000. No accounting entries had been made to record this.

The book-keeper had continued to provide depreciation for the property based on the value of \$432 000.

- 3 In the financial statements of 2020, a non-current asset was wrongly classified, with the effect that depreciation had been overcharged by \$20 000 in 2020 and \$14 000 in 2021.
- 4 AB plc sells goods at a mark-up of 60%. In December 2021, defective goods with a sales value of \$28 000 were returned by customers. The cost value of the returned goods had been included in inventory at 31 December 2021. It is expected that if \$6 000 is incurred to repair the returned goods, they can be sold at 80% of normal selling price.

Answer the following questions in the question paper. Questions are printed here for reference only.

- (a) Prepare a statement to show the 'profit for the year' for the year ended 31 December 2021. [8]
- (b) Explain the accounting treatment of the following, with reference to the relevant international accounting standards (IAS):
 - (i) item 3 [3]
 - (ii) item 4. [3]

Additional information

Equity of AB plc at 31 December 2020 was as follows:

	\$
Ordinary share capital (\$1 shares)	500 000
Share premium	86 000
Revaluation reserve	72 000
Retained earnings	<u>192 000</u>
	<u>850 000</u>

During the year ended 31 December 2021, the following transactions took place.

- 1 On 1 February, the final dividend of \$0.08 per share was paid from the 2020 profit.
 - 2 On 5 March, a bonus issue of one ordinary share for every ten ordinary shares held was made. It is the policy of the company to keep its reserves in the most flexible form.
 - 3 On 1 June, 100 000 new ordinary shares were offered to the public at \$1.80 each. AB plc received subscriptions for 80 000 shares which were fully paid.
 - 4 On 1 September, an interim dividend of \$0.02 per share was paid on all shares held at 31 March 2021.
 - 5 On 31 December, a final dividend of \$0.09 per share was proposed on all shares held at 31 December 2021.
- (c) State **one** difference between a rights issue and a bonus issue of shares. [2]
- (d) Prepare the statement of changes in equity for the year ended 31 December 2021. A total column is **not** required. [9]

[Total: 25]

Question 3**Source A3**

The directors of K plc provide the following information at 31 December 2021.

	\$
Profit for the year	114 000
Dividend paid	90 000
Ordinary share capital (\$1 shares)	600 000
Retained earnings at 1 January 2021	38 000
General reserve	75 000
Revaluation reserve	80 000
8% debenture (2025)	150 000

The market price of one ordinary share on 31 December 2021 was \$2.40.

Answer the following questions in the question paper. Questions are printed here for reference only.

- (a) Explain **two** ways in which accounting ratios may be used by potential investors to assess the performance of a business. [4]
- (b) Calculate to **two** decimal places the following:
- (i) price earnings ratio [2]
 - (ii) dividend yield [2]
 - (iii) income gearing [2]
 - (iv) gearing ratio [4]
 - (v) return on capital employed. [2]

Additional information

The directors are considering declaring a proposed dividend of \$0.20 per ordinary share. Due to the low level of retained earnings at 31 December 2021, they ask the accountant whether the dividend can also be paid out of other reserves.

- (c) Discuss how the accountant should reply to the directors. [4]

Additional information

The directors are thinking of investing \$100 000 in a new project in 2022. The project will generate a profit of \$24 000 before interest in 2022. They have two options to raise \$100 000:

option 1: issue of new ordinary shares

option 2: issue of a further 8% debenture.

- (d) Advise the directors which option they should choose. Justify your answer. [5]

[Total: 25]

Question 4**Source A4**

Alan and Bobby were in partnership sharing profits and losses in the ratio of 3:2. The partnership's statement of financial position at 31 March 2022 was as follows:

	\$	\$
Non-current assets		
Land and buildings	350 000	
Equipment	158 000	
Motor vehicles	<u>57 000</u>	565 000
Current assets		
Inventory	75 000	
Trade receivables	93 000	
Bank	<u>52 000</u>	<u>220 000</u>
		<u>785 000</u>
Capital accounts		
Alan	400 000	
Bobby	<u>320 000</u>	720 000
Current accounts		
Alan	(6 000)	
Bobby	<u>25 000</u>	19 000
Current liabilities		
Trade payables		<u>46 000</u>
		<u>785 000</u>

A company, MM Limited, acquired Alan and Bobby's partnership business on 1 April 2022. The company acquired all the assets except the bank account and a motor vehicle. The motor vehicle was taken over by Alan at the value of \$18 000. The partnership paid \$45 000 in full settlement of trade payables.

The value of assets taken over by MM Limited was:

	\$
Land and buildings	410 000
Equipment	132 000
Motor vehicles	30 000
Inventory	70 000
Trade receivables	<u>88 000</u>
	<u>730 000</u>

The goodwill of the partnership was also agreed at \$40 000. The purchase consideration was settled by \$1 ordinary shares in MM Limited at the value of \$1.40 per share. The shares were split between Alan and Bobby equally.

Answer the following questions in the question paper. Questions are printed here for reference only.

- (a) Prepare a statement showing the partners' share of profit or loss on realisation. [6]
- (b) Prepare the partners' capital accounts in columnar form to show the closing entries. [5]
- (c) Prepare the journal entries in MM Limited's books to record the acquisition of the partnership business. [3]
- (d) Define the term 'intangible asset'. [2]
- (e) Discuss the reasons why the purchase consideration was more than \$730 000. [6]
- (f) Advise the directors whether or not they should have paid more than \$730 000 for the partnership. Justify your answer. [3]

Section B: Cost and Management Accounting

Question 5

Source B1

The directors of V Limited are concerned about the company's future cash position. They have asked the management accountant to prepare a cash budget for the 3 months ending on 31 August 2022.

The following information is available.

1	Actual sales	\$	
	April		234 000
	May		210 000
	Budgeted sales		
	June		195 000
	July		207 000
	August		228 000
	September		216 000

- 2 All sales are on credit. All customers pay two months after purchase.
- 3 Goods are sold at a mark-up of 50%. Goods are purchased one month before sales. 60% of the purchases are paid for in the month of purchase to get a 2% cash discount. The remainder is paid in the following month.
- 4 V Limited keeps no inventory at the end of each month apart from the goods purchased for the following month's sales.
- 5 Wages of \$50 000 and overheads of \$20 000 are paid in the month in which they are incurred. Wages are expected to increase by 10% from 1 July 2022.
- 6 Rent, \$60 000 per annum, is payable half-yearly in advance in July and January.
- 7 The balance at bank on 1 June 2022 is expected to be \$33 000.

Answer the following questions in the question paper. Questions are printed here for reference only.

- (a) Explain **one** purpose of preparing a cash budget. [2]
- (b) Prepare the cash budget for **each** of the three months ending 31 August 2022. [11]
- (c) Prepare the budgeted income statement for the three month period ending 31 August 2022. [5]

Additional information

The directors suggest a new credit policy to improve the cash position of the company for the three months ending 31 August 2022. A 3% cash discount is to be allowed to customers who pay one month after sales. It is estimated that 50% of the customers will take the cash discount. This new credit policy would apply to all sales made in May and thereafter.

- (d) Calculate the effect of the new credit policy on the company's cash receipts for **each** of the three months ending 31 August 2022. [5]
- (e) Comment on the effect of the new credit policy on the company's profitability for the three month period ending 31 August 2022. Support your answer with calculations. [2]

[Total: 25]

Question 6**Source B2**

The directors of M Limited plan to buy a machine for a new product at the cost of \$160 000. It has a useful life of four years with no residual value.

The number of units produced and sold are expected to be as follows.

Year 1	Year 2	Year 3	Year 4	Total
5000	7500	8500	4200	25 200

The unit selling price is \$28 and the variable cost is \$10 per unit. Annual fixed costs **including** depreciation are \$90 000 up to the level of 6500 units. The fixed costs will increase by \$10 000 each time the production level increases by up to 1500 units.

Answer the following questions in the question paper. Questions are printed here for reference only.

- (a) Calculate the net cash flows for each year throughout the life of the machine. [4]

Additional information

The cost of capital is 10%. Relevant discount factors are:

	10%	16%
Year 1	0.909	0.862
Year 2	0.826	0.743
Year 3	0.751	0.641
Year 4	0.683	0.552

- (b) Calculate for the proposed purchase:
- (i) the net present value (NPV) [4]
 - (ii) the internal rate of return (IRR). [4]
- (c) Advise the directors whether or not the machine should be purchased. Justify your answer. [3]

Additional information

The directors decide that the NPV method should be adopted. One of the directors has concerns about the total sales target. To achieve the total sales of 25200 units, he has the following suggestion.

- 1 The selling price should be reduced by \$1.
 - 2 Advertising costs of \$8000 should be incurred in both Year 1 and Year 3.
 - 3 The units produced and sold for each year should be the same. This would also keep the fixed cost to its minimum.
- (d) Explain what is meant by the term 'sensitivity analysis' for investment appraisal. [3]
- (e) Assess the impact of the director's suggestion on the decision to buy the new machine. Support your answer with calculations. [7]
