|--------------|------------------------|----------------------------------|----|----|
| | | A | C | E |

| Component 23 | 80 | 63 | 27 | 13 |

The threshold (minimum mark) for B is normally set halfway between those for Grades A and C. The threshold (minimum mark) for D is normally set halfway between those for Grades C and E. Grade A* does not exist at the level of an individual component.

The thresholds for the **syllabus** are determined first by adding together the thresholds for the components taken by the candidate. A reduction may be made at the higher grades depending on the correlation of the papers. If the maximum raw marks for the components are not in the weighting/relationship specified in the syllabus, a weighting is applied to arrive at the overall thresholds. The A* threshold is calculated using the difference between A and B as a starting point.

The maximum total mark for this syllabus is **160**.

The overall thresholds for the different grades were set as follows.

| Option | Combination of components | A* | A | B | C | D | E |
|--------|---------------------------|------------|------------|-----------|-----------|-----------|-----------|
| AX | 11, 21 | 141 | 127 | 88 | 58 | 49 | 40 |
| AY | 12, 22 | 153 | 135 | 90 | 57 | 45 | 34 |
| AZ | 13, 23 | 141 | 127 | 88 | 58 | 43 | 29 |

Grade Thresholds are published for all GCE A/AS and IGCSE subjects where a corresponding mark scheme is available.
